Sustainability at Bouchaine

As a sustainable winery and certified green farm, we believe in protecting our natural resources and minimizing our impact on the environment.

We were the first Fish Friendly Farm certified in Napa County!

Our efforts include:

- Replanting vineyards with renewed focus on high-touch viticulture
- Dry farming to conserve resources and intensify fruit character
- Planting cover crops to prevent erosion, add soil nutrients, and attract beneficial insects
- Broadcasting compost and compost teas to replenish soils, add organic matter, and bring in additional nutrients
- Repurposing grape pomace as feed for neighbor's free range cows
- Positioning bluebird and owl boxes and raptor perches throughout the vineyard to encourage natural predation of pests
- Daily site visits from our falconer to mitigate bird damage, from véraison through harvest
- Socially sustainable practices dedicated to supporting the arts, education, and our animal friends
