### Bouchaine Vineyards

There's something transportive about Carneros; San Pablo Bay, rolling hills, winding roads and the sheep that dot the landscape all contribute to a bucolic feel. The updated Bouchaine tasting room is one of the best venues in which to soak it all in. An inlay on the patio floor that reads "Wine makes you happy" greets guests at the entrance. The new, modern building, full of glass walls and with a dramatic curved roof, feels like an extension of the hills that surround it. The interior is stylish, but most will be drawn to the outdoor terrace with its panoramic views. The website lists winery events, including pairing wines with music, chocolate or food from guest chefs. There are also monthly dog walks (BYOD) along vineyard trails, and an exciting falconry experience.
